Voudouris Angelos - Michael

DATA SCIENTIST
Junior

About Me

I am a data scientist familiar with gathering, cleaning and organising data for analytics and predictive models. I also have some experience with feature engineering and supervised machine learning models. Recently, I worked with ML models for time series forecasting of daily oil prices (in collaboration with Daniil Kiose from Standard Chartered Bank)

Software

Python
C (Programming Language)
SQL
JavaScript

Skills

Web Scrapping
Time – Series Analysis
Data Understanding
Bootstrap Method
Machine Learning Models
Model Selection
Gradient Boosting

Communication

Military Obligations

Hellenic Army / Special Forces
Specialty of Transmissions

Work Experience

2021 **Machine Learning - ML Oil Trading**
- Collaboration with Daniil Kiose Quantitative Modelling & Analytics at Standard Chartered Bank
- Web scraping a time series of US commodity
- Data preparation
- Forecast Crude Oil WTI with NGBoost model

2021 **E - Commerce Website**
- Worked with Raphael Kargos, undergraduate seminar for the university
- Create a dynamic website E - Commerce
HTML, JavaScript, MySQL
